

LOGISTXS TERMS OF SERVICE & RATE QUOTES *LAST UPDATED May 2017*

1. When doing business with Logistxs, you agree that you have read, understand and agree to the following terms relating to our quotation for service and any contracted or ordered services.
2. Your freight may need extra insurance as some carriers will only provide damage insurance at the rate of \$0.50 per pound. **Carrier liability is not insurance** and, as a result, may not protect the full value of your shipment. The value of your shipment under carrier liability is based on class, condition of the items, and other factors unrelated to the actual value of your shipment. Liability also has a wide variety of restrictions. Liability is the maximum amount the carrier is liable for – not the amount that they will actually pay in the event of a claim. The nature of loss or damage to your shipment will have no bearing on the payment based on carrier liability.
3. You must notify us if you require additional insurance.
4. By using the services of Logistxs you agree that Logistxs is not responsible for damage to your freight by a carrier.
5. Freight pickup times are based on truck availability.
6. A shipper **MUST** use our Bill of Lading for OUR rate to apply..
7. If the shipper prepares and provides the Bill of Lading to the carrier, Logistxs reserves the right to be removed from the transaction and any carrier charge is the responsibility of the shipper. Delivery times are not guaranteed, but guaranteed delivery is available.
8. Any quotes based on Pallet Pricing requires that the driver sign for pallets not pieces and these shipments are released to \$0.50 per pound, additional insurance can be provided for an additional fee.
9. Quotes are based on information that has been provided by you and are good for 5 days
10. Transportation charges apply regardless of any damage to freight in transit.
11. If the shipment is not delivered or the delivery is delayed due to consignee refusal or other circumstance not under the control of the carrier, the freight may be stored on a temporary basis and reasonable storage charges may be applied to the charges, there also may be a re-delivery charge applied.
12. Any differences between provided specs and actual order will be adjusted accordingly such as mis-stated weight, and may result in increased charges
13. The rate provided will include the fuel surcharge but does not include any accessorial charges (like residential delivery, lumper, lift gate, appointments, etc.) or other fees unless otherwise noted.
14. Rate is based upon shipper load and consignee unload.
15. If any extra charges by carrier are due, you understand that those charges will be additional to our quoted rate.
16. Unless otherwise provided, freight will ship unprotected from outside temperatures. Concealed damage must be reported within 5 days of receipt of goods, or the claim can get denied.

Please contact Logistxs with any questions regarding these terms.
